About the Author: AK Ayre is a football fan and astrologer. Between 2002 and 2004 he was intrigued by claims from leading continental coaches that they were using astrology to improve team performance – aware that successful financiers and captains of industry were also turning to the ancient wisdom to gain a competitive advantage – he decided to do some original research. This revealing book is the result. Visit his website at, www.thefootballastrologer.co.uk.
