

Fiction Feedback

Thank you for accessing more information about Fiction Feedback, the critique and editing service for writers. We're delighted you're determined to make the most of your writing talent by using the services of Matador and by considering associated services to enhance your professionalism.

Multiple Critiques

Fiction Feedback is an established service which uses professional editors, writers and literary experts to offer constructive, helpful critiques. Our aim is to help fiction writers make their work as good as it can be, whether it's prior to self-publishing or submission to an agent or publisher.

We do this by highlighting the strengths of your writing – you need to know what you're doing right! – as well as identifying weaknesses and suggesting how to improve.

We're unusual in offering multiple critiques (1-4) on a sliding scale of affordable rates – you don't pay twice as much for two. Our customers find this useful and good value, often returning for more: 44% of our business is with existing customers.

Visit www.fictionfeedback.co.uk to find out more.

Essential Editing

Make the most of your opportunities to impress literary agents, publishers and readers by ensuring your writing is properly copy-edited. Apart from remedying mistakes in punctuation, spelling and grammar, Fiction Feedback's copy-editing and proofing service will identify plot holes, repetition, poor sentence construction, inconsistencies of tense and viewpoint and clumsy dialogue. We'll point out problems with logic, dubious style and any other aspects of the writing which make the reader trip up.

This copy-editing and proofing service is offered at a price per 1,000 words.

If you'd like help with *structural editing* where plot, character and pace are examined in depth and where we guide revision, we offer this through our book doctors.
